Adi Zimmerman | adizim@berkeley.edu | 408.510.8702

education Homestead High School

GPA 3.98/4.00, ACT 34/36, SAT Math 2 800/800

Coursework includes AP CS, AP Calculus, AP Statistics

University of California, Berkeley

Bachelors in Computer Science

Coursework includes Data Structures, Algorithms, Databases,

Architecture, Networking, Security, Artificial Intelligence

experience (

Cisco

Software Engineer Intern, Kinetic Team

- Built feature rich clustered MQTT Broker on Vert.x framework
- Worked primarily with Java
- Reference: Boris Degtyar

Marvell Summer 2017

Software Engineer Intern, Embedded Processors Team

- IoT data pipelining project between device boards
- QA for OS (Buildroot, Ubuntu) and server integration
- Worked primarily with Python and C
- Reference: Aviad Enav Zagha

Berkeley Institute for Data Science

Undergraduate Researcher, Infrastructure Team

- Built website tool to connect students with research
- Worked primarily with Ruby (Rails)

projects

- Database Management System (DBMS) implemented key structures/logic such as B+Trees, join algorithms, query optimization, and lock management with **Java**
- Website clones built Hacker News and Youtube with React/Redux. View on github

skills o

coding

Java, Python

C, Go, HTML, CSS, Javascript, SQL

tecr

Unix, Git, Vim, MQTT, AWS, Spark, Gradle, Docker, numpy/pandas

language

English (native), Hebrew (fluent)

to Present

Aug 2016

June 2016

Summer 2018

Spring 2017
